# **CAMP OVERVIEW**

The California Waterfowl Association's camps introduce juniors to the sport and traditions of waterfowling. Juniors learn from experts in the field with a safe, positive and supportive environment.

At camp, juniors will learn about or hone their skills with shotguns, waterfowl identification, gear, decoys and lots more. Juniors will receive hunter education instruction and complete the test for earning their hunter education certificate.

## **ABOUT CWA**

The California Waterfowl Association (CWA) is a nonprofit organization, whose mission is to conserve the state's waterfowl, wetlands, and hunting heritage. Over 20,000 members support the association's conservation and outdoor heritage programs.

### Waterfowl Resource Programs

CWA focuses its conservation efforts on four species of waterfowl. The mallard, pintail, wood duck, and goose programs cover much of the spectrum of wetlands and uplands located in California and the Pacific Flyway. These programs benefit more than 200 wildlife species. Each one poses unique challenges in habitat conservation, government action, education, and population enhancement.

### Outdoor Heritage Programs

CWA's heritage programs are designed to motivate people of all ages to get outdoors. Many of CWA's projects focus on the youth of today and help ensure abundant waterfowl and wetlands for tomorrow. CWA political activities increase outdoor recreation opportunities and protect our outdoor traditions for the next generation of waterfowl stewards. The association represents waterfowlers in a collective voice that is heard in the state capital and in our nation's capital.

## Correspondence

Campers will be very active during their stay at camp and we don't anticipate them needing to contact anyone. They will be having a great time at camp learning and discovering new things. See emergency contact numbers if you must contact your child during camp.

## Food Regulations

Please do not supply your child with food, chewing gum, candy, etc. during their stay at camp. We provide ample, balanced meals, and numerous light snacks. The food can attract ants and mice to the campsite and may also cause hard feelings among the other campers. All food brought by the campers will be confiscated by the camp staff. Please let us know if your camper has a food allergy or restricted diet.

## Hospital

Petaluma Valley Hospital is located at 1301 Redwood Way, Petaluma, CA 94954 approximately 13 miles away. Their phone number is (707) 794-8085.

## Hunter Education

Hunter Education Instructors have the discretion of deciding whether a student is given the final examination after completing at least ten hours of instruction. Upon evaluation, if the student does not display the appropriate maturity level when handling firearms, the student will not be given the final examination. Students displaying inappropriate behavior will not be certified regardless of knowledge or skill level.

## A Message from George

As a child growing up in Connecticut, my dad introduced me to hunting and fishing. My greatest childhood memories are spending time in the outdoors with my dad, mom and brother. I currently love shooting trap, skeet, and sporting clays around the central valley of California. I have hunted ducks, geese, grouse, turkeys, pheasants, quail, dove, and deer from Canada to California and Connecticut.

My goal is to provide a camp setting with responsible and knowledgeable instructors to educate as many interested youngsters as we can. Thank you for allowing your child to attend the camp. It is truly a great honor for me to share this wonderful sport and heritage with them.
