

Using the study guide or your memory, label each stage of hunter development with the letter of its definition!

DEFINITIONS

- A. Priority is getting off a shot, rather than patiently waiting for a good shot
- B. Success is determined by bagging the limit
- C. The hunter is selective and judges success by quality rather than quantity
- D. The process of hunting becomes a focus, there is a higher priority on how it's accomplished
- E. Success is measured by the total experience – the appreciation of the outdoors and the animal being hunted
